

Sustainability Assurance Immersion Programme

KEY BENEFITS

**PIVOT YOUR BUSINESS ADVISORY
ROLE TOWARDS THE PRACTICE OF
"SUSTAINABLE ASSURANCE."**

Through our comprehensive programme, you will acquire in-depth technical knowledge and specialist skills to evaluate whether your clients' sustainability claims are credible and meet industry standards.

OBTAIN "THOUGHT LEADERSHIP" PERSPECTIVES

Based on authoritative international standards and universal codes of practice (e.g. IFRS, ISSB, ISAE, SSAE, ISSA, ESRS, CDP, TCFD, GRI, etc).

ADHERE TO LEADING INTERNATIONAL BENCHMARKS

to ensure the advisory knowledge and expertise gained in this course meet the expectations and standards demanded by practices and practice networks globally.

INCREASE THE VALUE YOU ADD TO NEW AND PROSPECTIVE CLIENTS

Consider expanding your chargeable suite of advisory services by offering expert guidance on adopting sustainable practices, understanding sustainability impacts, and implementing "Climate Reporting" through customized roadmaps.

GAIN PRACTICAL TIPS

Through the case studies illustrated in the courseware, you get to consider the potential risk areas and pitfalls when reviewing Climate and Sustainability Reports, even before you start.
